

Our Reeve Libby Clarke would like to provide you with the following quote from our Prime Minister Justin Trudeau from his speech yesterday. We MUST ALL do our part to end this pandemic.

"We all have a role to play. Canada hasn't seen this type of civic mobilization since the Second World War. These are the biggest economic measures in our lifetimes to defeat a threat to our health. These historic measures will support Canadians to stay home to defeat Covid-19.

The government alone cannot win this fight. We all have to answer the call of duty. This is service that most of us have never been called upon to do. We, each of us, have to live up to our end of the bargain. We must fulfill our collective responsibility to each other. Listening to public health rules is your duty. Staying home is your way to serve.

So be smart about what you do and about the choices you make. That is how you will serve your Country and how we will all serve each other. How well we do this right now determines where our Country will be in two weeks or two months. It's in our hands, It's in your hands."
