

## Sustainability Minutes

October 2, 2018

11:00 am

**Present:** Joan Donaldson, Irene Martin, Nancy Carrol, Libby Clarke, Roy Reeds

Motion to accept Sept. 04, 2018 minutes,

Moved by Irene, seconded Roy – carried

### **County Economic Development Committee –**

- Attended Sessions that gave ideas on how to make a community more appealing
- Poverty Round table session, acknowledged that there is poverty within our community

### **Recommendation;**

It is the recommendation of the Sustainability Committee that a donation box be placed at the Community Centre for the area Food Banks.

### **Front Entrance Rejuvenation & uses of Main Street Revitalization Grant**

- Design and build RFP to be sent out before year end to be completed in 2019
- Madoc Garden was done through a high school, this is no longer an option as the class no longer is offered.
- Electronic sign

The Sustainability Committee recommends that a 4' double sided electronic sign be placed at the South East area at the front of the Community centre. They also recommend that a 4' single sided sign be put up at the Millbridge Roads Garage.

**Gunter Lake Beach rejuvenation** – since the road work has been completed along Gunter Lake road, it is recommended that to rejuvenate our public beach at Gunter lake the stone and gravel that has ran off into the lake be removed. Irene spoke to Crowe Valley conservation earlier about this and she was told that it would be acceptable to revitalize the beach by removing the rock that had run into the lake from the road and replacing the sand. Further investigation and costing would need to be obtained.

**November Community Luncheon** – There was money budgeted to host a Christmas concert this year. Without a lead for this event it is recommended that the Sustainability Committee host an informational luncheon for the community. **November 29<sup>th</sup> was selected for this event with Libby searching out speakers to participate.**

### **Strategic Plan Updates**

- The changes are to be sent to council through the Sustainability minutes for November meeting

Meeting Adjourned: 12:15 p.m.

Next meeting: October 02, 2018 at 11:00 a.m.
