

Waste Management Committee Minutes
March 05, 2019

Discussion began at 9:30

Members in attendance: Councilor Bob Bridger, Nancy Carrol, Marg Elliot, Glenn Hagerman

Members absent: Mary Fox

Minutes from January 22, 2019 meeting

Approved by: Marg Seconded by: Glenn

- Councillor Bridger brought the meeting to order

New Business

The Township has replied to an advertisement for an industrial compactor that the county of Hastings has offered out as surplus. It has been granted to the Township and will be picked up by the Roads Crew once information about size and weight are received. Martin Electric was contacted to ask about the potential cost to connect and we were quoted at \$250.00 to \$350.00.

Information from the 2018 Annual Report for each site was shared. According to the report if the fill rate remains consistent then the waste sites will have approx. 9 years left each.

Draft a call for support to Municipalities about encouraging Retail Stores to offer paper bags as an option for bagging.

Reach out to Faraday Township about the cost to recondition waste sites, look for information on potential increase to life span.

Old Business

Contact Reid transport to compare price for shipping of bulky waste and scrap metal. (Nancy is to look into this)

Look for information on Freon disposal being done by staff, training at Loyalist College. Or Someone in the area that can be hired in to do on site.

Look up information hand out about the time needed to break down different materials in a waste disposal site. AMO.on.ca

Update tipping fees, include stoves, make sure they reflect the cost to accept

Next Meeting: to be determined

Adjourned at 10:50
