Media Release

Warming Center – Bancroft/North Hastings

Hastings County and the Town of Bancroft wish to inform the public that the search for a suitable location for a warming center for this winter has been unsuccessful. Both County and Town officials, after an exhaustive search effort, felt it important to inform the public of this situation especially as the cold weather arrives.

Hastings County encourages individuals in an emergency homeless situation to call the local Community and Human Services office at 613-332-3410 or 1-866-569-1941. Outside of business hours individuals can contact After-Hours emergency services at 1-877-528-9514. Available services may include:

- Accommodations
- Transportation to available services
- Outreach service referral

Should a viable location be found, Hastings County remains committed to providing financial support to the operation of a warming center.
